Industrial Collaboration Programme 6

Briefing session and Q&A

03 December 2026

Today's session

- A short briefing on ICP6
- An opportunity to ask questions through a dedicated chat function
- Will be recorded and made available on the Royce website

Today's session will cover...

- Background to ICP
- Participation
- Eligibility criteria
- Scope
- Funding model
- Eligible costs
- Application process
- Timeline

Background to ICP

Slide 4 of 19

- Funds sprint projects that respond to major national materials challenges
- Catalyses impactful collaboration between industry, academia, and RTOs
- £18.8 million awarded to date
- Up to £4 million will be awarded under ICP6
- Competitive process and not all projects can be funded

Who can participate?

- Higher Educational Institutes (HEIs)
- Research and Technology Organisations (RTOs)
- Charities and not-for-profit organisations
- Companies of any size (only UK companies are eligible to claim funding)

Projects must:

- Have a total project cost of between £50,000-£130,000
- Include at least one company
- Include at least one university, RTO, not-for-profit organisation, or charity
- Comprise no more than 3 partners in total (including the lead organisation)
- Start on 01 July 2026 and finish by 30 November 2026 (5 months)

Eligibility

Slide 7 of 19

Projects must also:

- Carry out their project work and exploit the results from or in the UK
- Incur all Royce-funded costs within the project's duration
- Be a new project or activity that has not already started
(previously submitted application can be used to re-apply)
- Be within the scope of ICP6
- Led by an appropriate Project Lead

ICP6 scope

Slide 8 of 19

1	Energy Solutions: <i>Rising to the net zero challenge</i>
2	Future Healthcare: <i>Delivering beyond biocompatibility for active medical solutions</i>
3	Structural Innovations: <i>Strengthening our infrastructure, built environment and transport</i>
4	Advanced Surface Technologies and Materials Durability: <i>Enhancing product safety, performance and lifetime</i>

5	Next-Generation Electronics, Telecommunications & Sensors: <i>Driving the future of high-performance connectivity and computing</i>
6	Consumer Products, Packaging & Specialist Polymers: <i>Paving the way for a greener tomorrow</i>

We encourage proposals which incorporate or lead with the following cross-cutting themes:

- Sustainability and sustainable by design principles
- Materials 4.0

Funding model

Slide 10 of 19

Funding covers a proportion of total project costs and is determined by the type of recipient:

- HEIs - 80%
- RTOs, charities and not-for-profit organisations - 100%
- Companies - 25-70%

Note that any Royce facilities are awarded at 100%

Eligible costs

Eligible costs differ by organisation type:

HEIs	RTOs, charities, not-for-profits	Companies
<ul style="list-style-type: none">• Staffing• Consumables• Travel and subsistence• Royce facilities• Royce Application Scientists• Non-Royce facilities• Sub-contractors• Indirect	<ul style="list-style-type: none">• Staffing• Overheads• Consumables• Travel and subsistence• Royce facilities• Royce Application Scientists• Capital usage/equipment usage• Subcontractors	<ul style="list-style-type: none">• Staffing• Overheads• Consumables• Travel and subsistence• Capital usage/equipment usage• Subcontractors

Costs must be eligible and must be justified.

Ineligible costs will be removed from applications.

Eligible costs

Royce Facilities and Application Scientists

- Can be used and costed into ICP6 projects by HEIs and RTOs
- Use of Application Scientist expertise is encouraged where there is overlap
- Costings must be obtained through the relevant contact prior to application

Subcontractors

- Eligible when essential to the success of your project and involves expertise that does not exist within the project team.
- Costs cannot exceed 20% of total project costs
- May be based overseas but must be justified
- Must be pre-approved by Royce

Useful resources

ICP6 Guidance Document

Full details of this grant scheme
e.g. eligibility, funding models and
costs, and the application process

**Please read it carefully when
preparing for your application.**

Royce website

- Link to [Flexigrant website](#)
- Gantt chart template
- Webinar video and slides
- Award letter conditions
- Claims guidance

Application form

Slide 14 of 19

1. Project overview and lead organisation
2. Collaborators
3. Project proposal
 - Question 1 *The idea* - What is the problem you wish to solve and why is your proposed approach an innovative solution?
 - Question 2 *Workplan* - What will you do with the grant funding? How will you manage the project and risks effectively?

Application form

Slide 15 of 19

- Question 3 *Project resources and capabilities* - Explain why you and your partners are capable of delivering this project.
 - Question 4 *Impact and added value* - What will be the impact of receiving the grant funding?
4. Costs
 5. Declaration

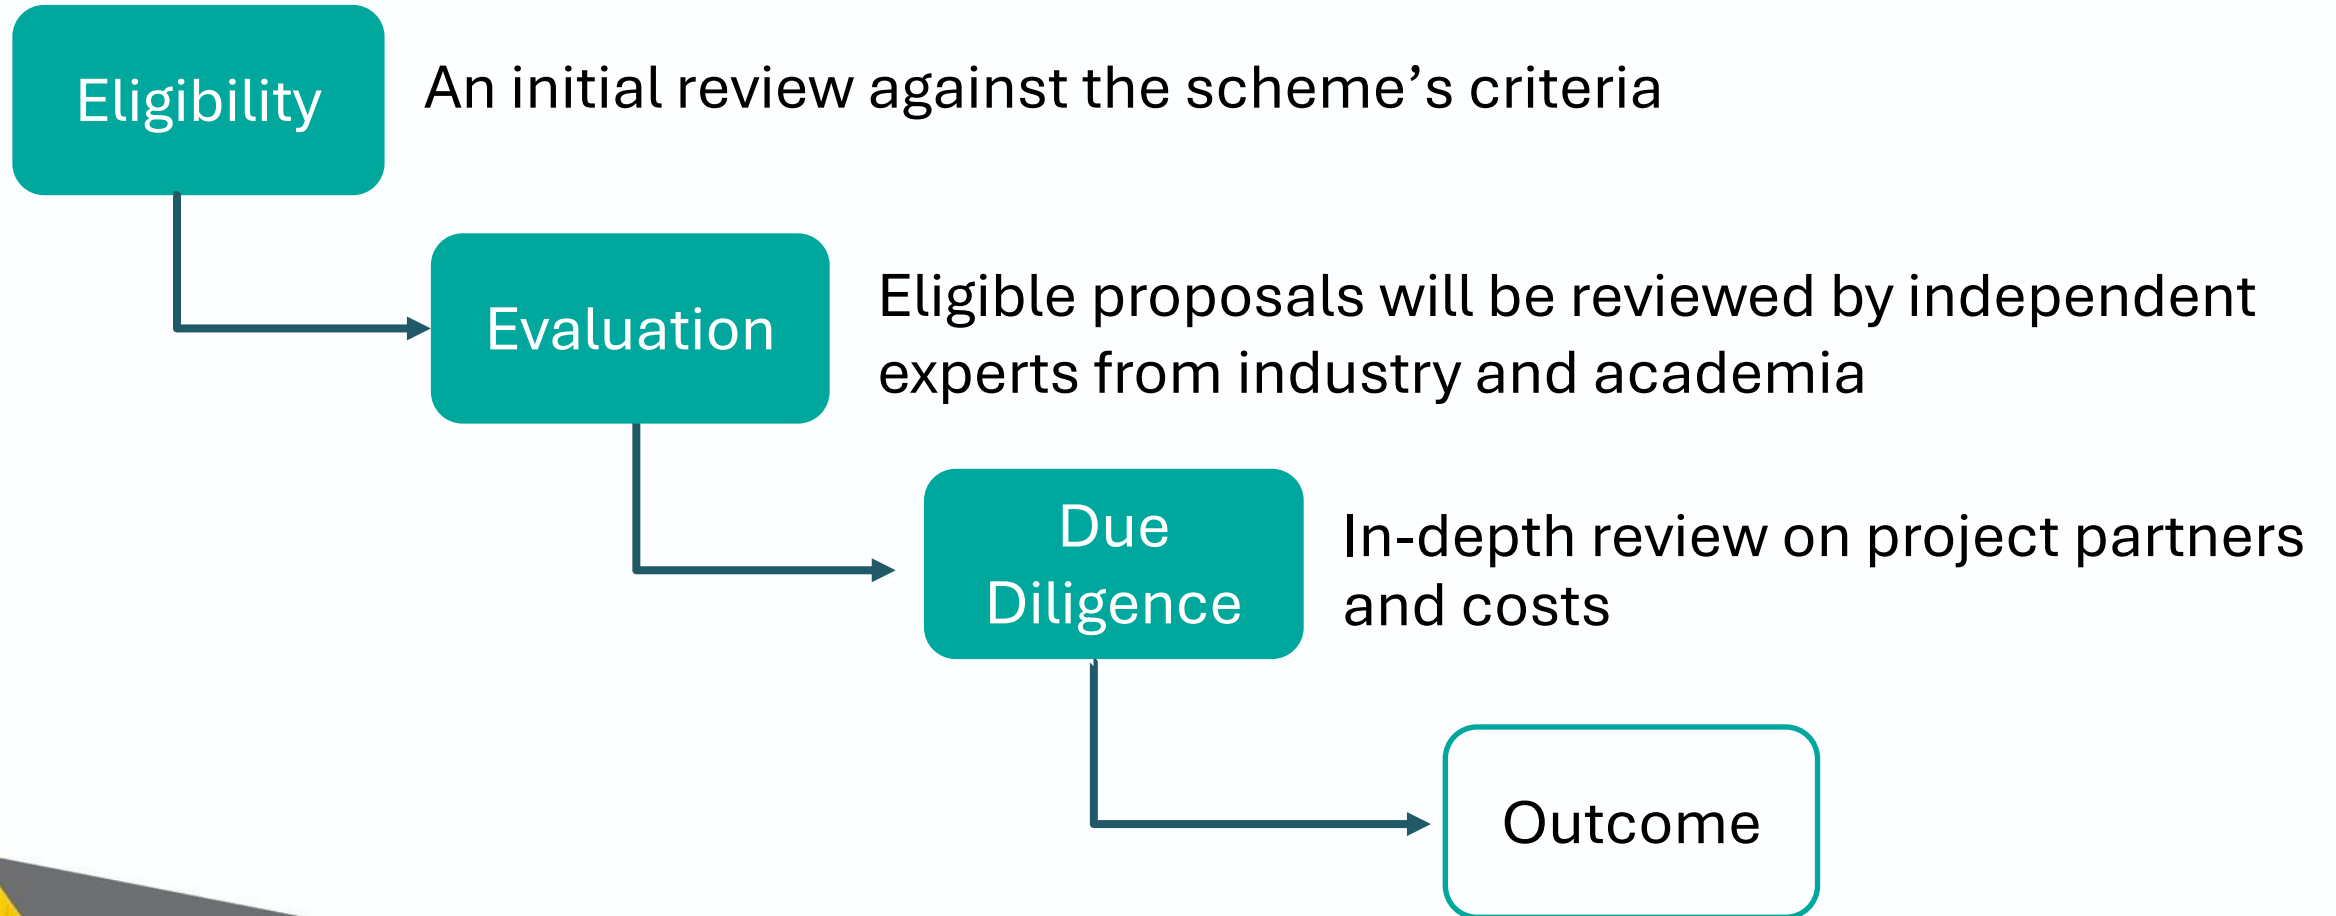

Submitting your application

Slide 16 of 19

- Ensure all required questions have been answered
- Ensure all required supporting documentation is uploaded
- Ensure the budget tables have been completed as per instructions
- Ensure any co-applicants have reviewed the application
- Complete the eligibility checklist
- Review the declaration and confirm acceptance

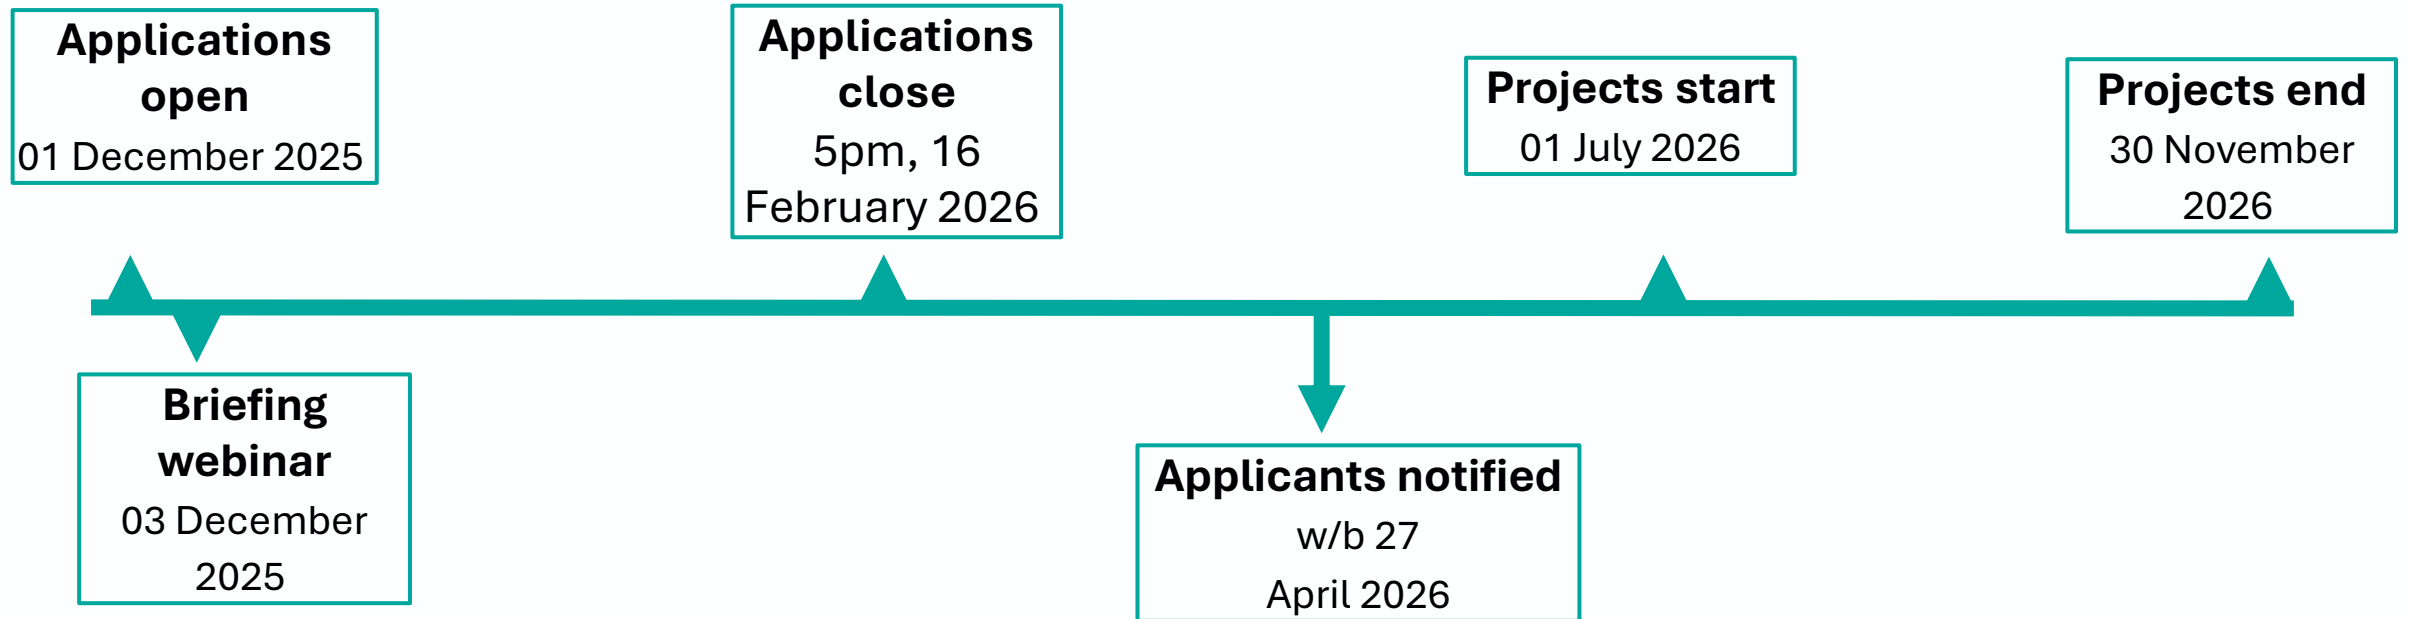

Review process
